# Master's Course in Neuromuscular Orthodontics and Cranio-mandibular Orthopedics

---

University of Castellon  
Jaume I, Spain

The main objective of the **Master's Degree in Neuromuscular Orthodontics and Craniofacial Orthopedics** is to train specialists in Neuromuscular Theory applied to Orthodontics and TMD. It has an international outlook, so it sets out to meet the demands of students from a variety of geographical locations. Thus, a blended learning program has been designed in which theory is taught online and internships are offered in prestigious centers in Europe and USA.

The demand for high-quality and specialized training offered by world-renowned universities such as the Universitat Jaume I (which is one of the top 500 in world rankings) is increasing among dentistry professionals. Additionally, they demand training that enables them to undertake doctoral studies.

The program is taught by internationally renowned specialized lecturers.

**Language: ENGLISH**

**Two year program with 120 ECTS (European Credit Transfer System).**

**Now open for 2020-2022 : ATTENDANCE TAILORED TO YOUR NEEDS**
